BIRGIT HERMANN

Lead Facilitator, Global Leadership Advisor and Author of BOLDER

Birgit is an international leadership advisor, speaker, strategist and author who helps individuals and organisations lead with greater courage, clarity, confidence, and purpose. Drawing on more than two decades of experience across over 20 countries, Birgit brings lessons from international development, organisational transformation and ocean conservation, alongside extraordinary endurance challenges including running 250km across the Sahara, cycling 12,000km across Africa and freediving to 50 metres.

Her training style is practical, engaging, reflective, and deeply human. Birgit combines powerful personal stories with practical tools, guided reflection, and real world leadership challenges. Through her [BOLDER Leadership Framework] she helps participants face personal fears, move beyond self doubt, and respond to uncertainty with calmness and confidence.

Her sessions help participants strengthen their presence, communicate with authenticity, make courageous decisions, build resilience, and inspire trust in others. Birgit creates an environment where individuals are encouraged to challenge their perceived limitations, discover their leadership potential, and develop the confidence needed to become inspirational leaders.

MR. KOLI SEWABU

SPECIAL GUEST

Agent of Change | CEO of Fiji Rugby Union

Mr Koli Sewabu is the Chief Executive Officer of the Fiji Rugby Union, a former Flying Fijian, an experienced performance coach, and a World Rugby Master Trainer. As a leadership speaker, he draws on his journey from professional rugby to coaching, executive management, and organisational leadership to deliver messages that are practical, inspiring, and grounded in lived experience.

His training style uses lessons from sport to explain essential leadership qualities such as discipline, teamwork, accountability, strategic thinking, adaptability, resilience, and the importance of consistently doing the small things well. His mentoring approach is focused on developing the whole person, not simply improving performance or achieving a particular result.

Through honest reflection, practical guidance, cultural understanding, and personal encouragement, Mr Sewabu helps emerging and experienced leaders recognise their strengths, build confidence, take responsibility, and lead others with humility, integrity, and purpose.
