INFECTION PREVENTION AND CONTROL FOR FIJI

$750 pp

AUSTRALIAN PACIFIC MANAGEMENT & TRAINING

Australian Qualification/ Statement of Attainment

(HLTINF006) APPLY BASIC PRINCIPLES AND PRACTICES OF INFECTION PREVENTION AND CONTROL

APPLY BASIC PRINCIPLES AND PRACTICES OF INFECTION PREVENTION AND CONTROL

Infection prevention and control is fundamental to safe, high-quality healthcare and community services. APMT's Infection Prevention and Control for Fiji program provides participants with practical knowledge and skills to minimise the risk of infection, maintain safe work practices and protect clients, patients, colleagues and themselves. Designed with focus on Fiji, the program supports best practice across healthcare, aged care and community settings.

DURATION
35 HOURS

1 Weeks full time | **2 Weeks** part time

IDEAL FOR:

- Hospital and clinic support staff
- Community health workers
- Aged-care and disability workers
- Dental/medical support teams
- NGO field workers

THE PROGRAM WILL HELP YOU

- Learn how infections spread and how to break the chain of transmission.
- Apply correct hand hygiene, protective equipment, cleaning, waste disposal and exposure response procedures.
- Protect yourself, your patients, your colleagues and the wider community from preventable infections.
- Strengthen workplace responses to HIV, blood borne viruses and other infectious diseases affecting communities.
- Gain essential practical skills for hospitals, clinics, laboratories, aged care, disability services and community programs.
